Graduates' Success on Licensure Exam

Graduates' success is calculated by the Maryland Board of Nursing (MBON) and the National Council of State Boards of Nursing (NCSBN) by the number of graduates who are successful on passing the NCLEX-RN on their first attempt.

Year	AY 2023	AY 2022	AY2021	AY2020

Graduates' success on licensure exam (NCLEX-RN):
*Pass rates reported by Maryland Board of Nursing are calculated by the fiscal year (July 1 – June 30) and combine partial results from two classes.
**Pass rates are reported national data from the National Council of State Boards of Nursing (NCSBN). All takers across the United States are included.

Graduate Satisfaction and Employment in Nursing

Hagerstown Community College RN graduate surveys are sent at 9 months post-graduation. Graduates are encouraged to provide anonymous feedback regarding the nursing program. Results are calculated from those graduates who choose to participate.

Graduate satisfaction is calculated by the "Prepared" response to the following question on the graduate survey: "How prepared were you for your role as a registered nurse."

Some graduates do not seek employment immediately upon graduation due to changing circumstances, relocation, and/or entering Bachelors of Science in Nursing (BSN) or Masters of Science in Nursing (MSN) program, upon completion of their Associate degree.

Employment in Nursing is calculated by the number of responses on the completed graduate survey.
