

Registered Nursing

Evening/weekend program

What is the Nursing Program?

HCC's Nursing Program is a Maryland State Board of Nursing approved program and accredited by the Accreditation Commission for Education in Nursing (ACEN) designed to provide students with the knowledge, skills, and understanding necessary to function effectively in all areas of professional nursing. Graduates of the nursing program are eligible to apply to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN). Students must have a social security or tax ID number to sit for this exam.

Individuals who excel in this program have excellent critical thinking skills, great attention to detail, and display both compassion and confidence in their work.

How is the curriculum designed?

The curriculum is divided into several broad areas of study and consists of lecture, laboratory, and clinical experiences. Emphasis is on the use of the nursing process to meet the needs of individuals, family members, and the community. Courses in general education provide students with the scientific and social background to function as effective health care providers.

About the Evening/weekend program

This option is for students who have completed or are in progress of completing all required general education courses by the supplemental application deadline and meet other admission standards prior to enrolling in the two years of nursing courses. Classes and labs will be held at HCC during evening hours, with clinical instruction to occur on weekends at Meritus Medical Center and other clinical facilities.

Upon completion of the program, students may choose to enter the workforce or transfer to a four-year institution to earn a bachelor of science degree in nursing.

Why should I choose HCC?

Nursing is a profession that is open to men and women with various career interests. HCC's Registered Nursing Program is accredited with the Maryland State Board of Nursing and the Accreditation Commission for Education in Nursing (ACEN).

HCC prepares nurses to meet the challenges of today's health care industry and lay the foundation to rise to future challenges as new knowledge and technologies occur. Successful completion of the HCC Nursing Program enables the graduate to apply for the NCLEX-RN for licensure as a Registered Professional Nurse (RN).

This program of study is designated as a Health Manpower Shortage Program; therefore, some residents of Maryland enrolled in this program of study on the first day of the term may be eligible for in-county tuition rates for courses required for program completion.

Pre-Admission Requirement

Students must complete the nationally normed test for nursing students known as the Test of Essential Academic Skills (TEAS). The TEAS is a scholastic aptitude assessment in the areas of math, reading, English, and science. Students will not be considered for admission to the program until they achieve the required scores on the TEAS. Applicants should consult the HCC website at www.hagerstowncollege.edu/teas for specific information about the TEAS, including score requirements.

Admission Requirements

Admission to HCC does not guarantee admission to the Division of Nursing. The requirements below must be completed and submitted to the Office of Admissions and Enrollment Management by August 15th for the Evening/weekend program.

- All students planning on applying to the Registered Nursing program must watch the Nursing Preview before the Supplemental Application deadline. Students who are transferring in who have completed a nursing class at another accredited college are exempt from this orientation. Students who have only completed a CNA class must watch this preview.
- Submit a completed program application known as the Supplemental Application for the Nursing Program (RN)
- Submit official TEAS scores. Official TEAS score reports are required to be sent through the ATI site for TEAS taken at locations other than the HCC Testing Center. Students who do take the TEAS at

EMPLOYMENT

3.3M jobs in U.S.
6% growth in next ten years

Demand for healthcare services will increase because of the aging population, given that older people typically have more medical problems than younger people. Nurses also will be needed to educate and care for patients with chronic conditions, such as arthritis, dementia, diabetes, and obesity.

(source: www.bls.gov/ooh)

HCC are encouraged to bring a copy of the scores or email the scores to the HCC Admissions Office. Applicants will not be considered for admission to the program until they achieve a 69% or higher on the Adjusted Individual Score for Reading and an Adjusted Individual Total Score of at least 60%.

- Official transcripts from all colleges attended even if the courses taken are not directly applicable to the RN program. HCC calculates cumulative GPA from all college coursework as part of the scoring process (students who took classes at HCC do not need to submit official HCC transcripts). All transcripts must be complete and show grades or outcomes for each class taken or the status of in-progress for classes that are in-progress at the application deadline.
- Completion of all required science courses within seven years prior to the application deadline.
- All General Education courses and BIO 205 must be completed or in progress at the time of application to the program. The courses include [ENG 101](#), [ENG 102](#), a Math General Education course from the approved General Education course list, [PSY 101](#), [SOC 101](#), [PSY 204](#), [BIO 203](#), [BIO 204](#), and an Arts/Humanities course from the approved General Education course list.
- A minimum cumulative grade point average for all college coursework of 2.0 on a 4.0 scale. In addition, a minimum grade point average of 2.5 for all program courses is required

- In addition to the minimum grade requirement for English Composition set forth by COMAR, HCC requires nursing students to complete all General Education requirements with a minimum grade of “C” or higher. If a student has a grade below a “C”, they are not eligible to be scored until that grade is replaced with a grade of “C” or higher.
- Submit official AP scores if using these scores to meet one of the general education requirements. AP scores of 3 or higher are used.
- Foreign educated students must have their college transcripts evaluated by World Education Services (WES).
- The Nursing program is a Maryland Health Manpower Shortage program. All students who apply for this program must be eligible to work in the State of Maryland at the application deadline and while enrolled in the program.

Program Requirements

Students practice selected procedures on each other in the college laboratory. All nursing students must receive:

1. A minimum overall grade of 75% in each of the first year nursing courses (NUR 105, NUR 127, NUR 224, NUR 229). A minimum overall grade of 77% in each of the second year nursing courses (NUR 126, NUR 226, NUR 228, NUR 230, NUR 231). Two final course grades below a 75% in the first year of the program and/or below a 77% in a second year of the program means a dismissal from the Nursing program and the student cannot continue or reapply to the RN program for 5 years.
2. A minimum exam grade of 75% in each of the first year nursing courses (NUR 105, NUR 127, NUR 224, NUR 229). A minimum exam grade of 77% in each of the second year nursing courses (NUR 126, NUR 226, NUR 228, NUR 230, NUR 231).
3. A minimum grade of 77% on 50% or more of the total exams for the course during the second year of the program (NUR 126, NUR 226, NUR 228, NUR 230, NUR 231).
4. A minimum grade of 90 percent on a drug calculation exam in each nursing course.
5. A mark of satisfactory for both the simulation laboratory and clinical experiences. Students who receive a final mark of unsatisfactory in the clinical

laboratory or clinical experience, or fail the drug calculation exam, despite a passing theory grade, will not be permitted to progress in the nursing program and will receive a final grade of “F” for the course.

6. Upon completion of nursing coursework, students must achieve 92% probability of passing the NCLEX on the first attempt on the ATI comprehensive Predictor Exam. Students who do not achieve this score will be allowed to retake the exam after appropriate remediation until they achieve the required score.

Students who do not meet program or course standards that result in dismissal from the nursing program are not eligible for readmission. This includes students who cannot meet safety standards, and students who violate the college’s Honor Code and Standards of Conduct, the nursing program’s Standards of Conduct, and the American Nurses’ Association Code of Ethics for Nurses.

Are there any disqualifying crimes for this major?

All nursing students who are offered admission to the nursing program will be required to complete a criminal background check. A separate criminal background check may also be required by a clinical site prior to beginning a clinical experience. Criminal background check results are disclosed to clinical facilities as required. If a student is denied access by a clinical site because of the background check, and as a result, cannot meet program requirements, the student may be dismissed from the nursing program.

Nursing (Evening/weekend program)

All General Education courses and BIO 205 must be completed or in progress at the time of application to the program.
