

Staff Council Meeting

Sept 20, 2023

2-3pm STC-182

Minutes

We reviewed the last official minutes we had which were from July.

Discussed, as a group, that there hasn't been any activity or information from any union groups up to this point and about whether there had been any talk or questions about it in each of our individual areas.

Amy reached out to Jamie Cannon prior to the meeting to clarify if any union groups had notified the college that they were reaching out to employees. At that time, they had not.

Jamie shared that this is a very slow-moving process in the beginning. She also shared that the FCC Faculty unionizing was a surprise to FCC.

Staff Council was tasked with coming up with a nonexempt employee to fill a vacant position within the individual assessment committee.

There was discussion about the new cleaning service and any shortcomings or issues our individual departments may be experiencing.

Also discussed the new Employee handbook. The suggestion was brought up to have HR reach out to the campus, as a whole, to let everyone know about the new handbook as many people don't make it to the Fall Colloquium due to work responsibilities, where it was originally announced.
